

Indicative price      Detailed offer      Probability of order      %      **Approx. time of completion** (month/year)

## CUSTOMER DETAILS (mold maker)

Customer name      Customer project name      Customer project no.  
 Customer contact      Email Address      Phone

## END USER DETAILS

Company name      End user project name      End user project no.

### Industry sector:

Medical    Packaging    Consumer    Automotive    Electronic    Others    Which?

## ARTICLE DETAILS

Please provide us with 2D=dxf, pdf / 3D=step files!

Part name      Part number      Thread Ø      Thread length      Thread pitch  
 Thread direction      right-hand      left-hand  
 Material type      Material name/ designation      Melt temperature

## PROJECT DETAILS

### Threaded core cooling:

Yes    No

Direct cooling

With inner core

No. of cavities

Cav. arrangement circular      Pitch Ø

Cav. arrangement square      Pitch x/y

Cav. arrangement in row      Pitch x

Other arrangement

### Unscrewing direction:

Ejection side

Injection side

Laterally

### Thread start:

Thread starts not specified

Thread starts in same position

## PROCESS DETAILS

Unscrewing time (one direction)      sec.      Cycle time (complete)      sec.      Mold temperature      °C  
 Type of servomotor: (encoder system)      Resolver      Motor brake: (holding brake)      without brake      Control unit:      Please offer  
    Absolute encoder      with brake      third-party controller      Already present
